The AHA updated its Emergency Cardiovascular Care guidelines in 2015 to strengthen the recommendations made in 2010. Refer to the AHA's summary document for a thorough review of the changes. Below are the major changes for the 2015 - 2020 BLS guidelines:

Basic Life Support for Healthcare Providers Handbook iii The care steps outlined within this handbook are consistent with the 2010 International Liaison Committee on Resuscitation (ILCOR) Consensus on Science and Treatment Recommendations (CoSTR) and the 2010 American Heart Association Guidelines for CPR & ECC. ACKNOWLEDGMENTS

The life saving interventions of BLS are primarily for the purpose of maintaining circulation and oxygenation of the brain and other vital organs until Advanced Cardiac Life Support (ACLS) or other interventions can be initiated by trained healthcare providers.

This topic review will discuss the critical facets of basic life support in adults for clinicians as presented in the American Heart Association and European Resuscitation Council's 2010 Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care, and the update of these guidelines published in 2015 . Advanced cardiac life ...
