A fascinating new look at an extraordinary artist whose deafness led to an acute visual awareness and near photographic memory. Self-taught artist James Castle (1899-1977) is primarily known for soot and saliva drawings of meticulously rendered domestic interiors and farm scenes, along with fantastical figures, animals, and architectural constructions made of cardboard and stitched paper. Castle was born into a family of homesteaders in Idaho, and his visual world comprised variations of seemingly ordinary subjects: rural landscapes, houses, barns, and outbuildings; interiors with closed and open doors, beds, bureaus, tile floors, and minutely patterned wallpaper; and color copies of illustrated advertisements for food, fuel, and matches. Castle was a deaf artist who by most ac-

counts never learned to read, write, or speak. In this remarkable book, author John Beardsley discusses how these limitations led to the development of an extraordinary memory, an ability that enabled him to create a large number of distinctly intelligent artworks. Beardsley follows Castle's work as if through a series of rooms (a "Memory Palace")--interiors, exteriors, objects, books, and words--reproducing many previously unknown works and referencing other documents made available for the first time from the James Castle Collection and Archive.

The Great Western Castles were one of the most successful locomotive designs of the twentieth century in terms of both performance and efficiency. Designed by Charles Collett in 1923, based on the 1907 Churchward Star class, 155 were constructed almost continuously, apart from the war years, between 1923 and 1950,

in addition to fifteen rebuilt "Stars" and one rebuilt from the Great Bear Pacific. Many were modernised with increased superheat and double-chimneys in the late 1950s and the class continued to be the mainstay of all Western Region express passenger services to the West Country, South Wales, Gloucestershire, Herefordshire and the West Midlands until replaced by the WR diesel hydraulic fleet in the early 1960s. This book covers their design in a chapter written by Bob Meanley, who masterminded the restoration at Tyseley Works of the Castles Earl of Mount Edgcumbe and Clun Castle, and their history, operation and performance from the high speed of the 1930s through to their rejuvenation in the 1950s, leaving experience of their last years and preservation to another volume. David Maidment had close experience of the class when working at Old Oak Common between 1957 and 1962 and includes his personal experiences there and on the road from his first encounter with one as a six-year old boy. The book includes 350 photographs, some 40 in color, and 23 detailed Swindon technical drawings.

In this engaging book Matthew Johnson looks 'behind the castle gate' to discover the truth about castles in England at the end of the Middle Ages. Traditional studies have seen castles as compromises between the needs of comfort and of defence, and as statements of wealth or power or both. By encouraging the reader to view castles in relation to their inhabitants, Matthew Johnson uncovers a whole new vantage point. He shows how castles functioned as stage-settings against which people played out roles of lord and servant, husband and wife, father and son. Building, rebuilding and living in a castle was as complex an experience as a piece of medieval art. Behind the Castle Gate brings castles and their inhabitants alive. Combining ground-breaking scholarship with fascinating narratives it will be read avidly by all with an interest in castles.

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve

out a successful life. -- From publisher description.
