## 6FA - DAVENPORT HESTER

The following is an adapted excerpt from my book Cost Accounting Made Simple: Cost Accounting Explained in 100 Pages or Less. "Direct costs" are those that can be directly traced to a specific cost object. (As a reminder, a cost object is typically a product.) "Indirect costs" are those that cannot be directly traced to a single cost object.

Under this method, simple average rate at cost is obtained by adding the rate of purchases represented by stock at the time of issue & then dividing the same by the number of such rates. The rate needs to be revised at the time of any new purchase or exhaustion of any existing stock.
