#### **Learn to Program with Minecraft Plugins: Create Flying ...**

MakeCode for Minecraft makes learning to code super fun. Coding with blocks or text, MakeCode teaches the 101 of programming languages, including variables, control flow, if statements, loops and functions. More advanced users smoothly ramp up to more complex concepts such as recursion, fractals and object oriented or distributed programming.

It's a long-held tradition in the programming world to start off with a simple test program that prints out the message "Hello, World." So we'll start off by building and running an existing plugin that does that in Minecraft—except we'll send out a slightly more interesting message.

#### **Learn to Program with Minecraft: Troubleshooting Guide**

...

Build new schematics with all the usual Minecraft blocks in your browser! Now you can build anywhere - even at school! By creating schematics, you essentially create a "blueprint" that can be used in your Minecraft mods to create repeating structures or procedurally generate landscape features in Minecraft.

Learn to Play: Programming NPCs NPCs are humanoid characters in Minecraft that can be used to provide ambiance, fun interactions and communications related to lessons, directions or dialogue. To create NPCs, open your inventory (type E) and add a Spawn Egg to your inventory.
