The Unitrol 7000 models combine a manual main and pilot gas valve, a separate automatic safety pilot valve, pilot adjustment valve, and a diaphragm valve. The regulated models also feature "straight line" gas pressure regulation. Robertshaw diaphragm gas valves are single function, and are excellent replacements for solenoid gas valves.

#### UNITROL STANDARD 7000 GAS VALVES

A major manufacturer of hot surface gas ranges realized that their piecemeal approach to constructing gas systems was inefficient. Managing multiple vendors for burner, igniter, gas valve, gas pressure regulator, and thermostat components complicated their manufacturing processes.
