Here's a call to colleges and universities to consider implementing restorative practices on their campuses, ensuring fair treatment of students and staff while minimizing institutional liability, protecting the campus community, and boosting morale. From an associate dean of student affairs who has put these models to work on his campus. Restorative justice is a collaborative decision-making process that includes victims, offenders, and others who are seeking to hold offenders accountable by having them (a) accept and acknowledge responsibility for their offenses, (b) to the best of their ability, repair the harm they caused to victims and communities, and (c) work to reduce the risk of re-offense by building positive social ties to the community. David Karp writes in his introduction, "As a student affairs administrator, I have become deeply committed to the concept and practice of restorative justice. I have experienced how it can work given the very real pressures among campus conduct administrators to manage high case loads, ensure fair treatment, minimize institutional liability, protect the campus community, boost morale in a division with high turnover, and help students learn from their mistakes without creating insurmountable obstacles to their future successes."

A fully revised & updated handbook for teachers and administrators on creating just and equitable learning environments for students; building and maintaining healthy relationships; healing harm and transforming conflict. Much more than a response to harm, restorative justice nurtures relational, interconnected school cultures. The wisdom embedded within its principles and practices is being welcomed at a time when exclusionary discipline and zero tolerance policies are recognized as perpetuating student apathy, disproportionality, and the school-to-prison pipeline. Relying on the wisdom of early proponents of restorative justice, the daily experiences of educators, and the authors' extensive experience as classroom teachers and researchers, this Little Book guides the growth of restorative justice in education (RJE) into the future. Incorporating activities, stories, and examples throughout the book, three major interconnected and equally important aspects of restorative justice in education are explained and applied: creating just and equitable learning environments; building and maintaining healthy relationships; healing harm and transforming conflict. Chapters include: *The Way We Do Things A Brief History of Restorative Justice in Education* Beliefs and Values in Restorative Justice in Education Creating just and Equitable Learning Environments Nurturing Healthy relationships Repairing Harm and Transforming Conflict A Tale of Two Schools: Thoughts and Sustainability The Little Book of Restorative Justice in Education is a reference that practitioners can turn to repeatedly for clarity and consistency as they implement restorative justice in educational settings.

"In the tradition of bestselling explainers like *The Tipping Point*, [this] book [is] based on cutting edge science that breaks down the idea of extreme conflict--the kind that paralyzes people and places--and then shows how to escape it"--

Since the early 1980s John Paul Lederach has traveled worldwide as a mediation trainer and conflict resolution consultant. Currently the director of the International Conciliation Committee, he has worked with governments, justice departments, youth programs, and other groups in Latin America, the Philippines, Cambodia, as well as Asia and Africa. Lederach blends a special training method in mediation with a tradition derived from his work in development. Throughout the book, he uses anecdote and pertinent experiences to demonstrate his resolution techniques. With an emphasis on the exchange involved in negotiation, Lederach conveys the key to successful conflict resolution: understanding how to guide disputants, transform their conflicts, and launch a process that empowers them.

A handbook showing how racial justice and restorative justice can transform the African American experience in America. *The Little Book of Race and Restorative Justice* will inform scholars and practitioners on the subjects of pervasive racial inequity and the healing offered by restorative justice practices. Addressing the intersectionality of race and the US criminal justice system, social activist Fania E. Davis explores how restorative justice has the capacity to disrupt patterns of mass incarceration through effective, equitable, and transformative approaches. Eager to break the still-pervasive, centuries-long cycles of racial prejudice and trauma in America, Davis unites the racial justice and restorative justice

movements, aspiring to increase awareness of deep-seated problems as well as positive action toward change. Davis highlights real restorative justice initiatives that function from a racial justice perspective; these programs are utilized in schools, justice systems, and communities, intentionally seeking to ameliorate racial disparities and systemic inequities. She looks at initiatives that strive to address the historical harms against African Americans throughout the nation. This entry in the Justice and Peacebuilding series is a much needed and long overdue examination of the issue of race in America as well as a beacon of hope as we learn to work together to repair damage, change perspectives, and strive to do better.

Conflict in relationships is inevitable. Like electricity, it can turn on a light, power change, or burn down the house. Over the past 30 years, Keith R Wilson has worked with thousands of people in his psychotherapy practice. They've all had problems with conflict. Either they stuff their feelings, or they're outwardly angry, or they alternate between the two. However, he believes that conflict can signify the beginning of a real bond, not the end, provided that it's well regulated. With disarming humor and refreshing directness, the author shows how you can manage your conflicts. You'll be a better person and build better relationships if you do.

How can a just peace be built in sites of genocide, massive civil war, dictatorship, terrorism, and poverty? In *Strategies of Peace*, the first volume in the *Studies in Strategic Peacebuilding* series, fifteen leading scholars propose an imaginative and provocative approach to peacebuilding. Today the dominant thinking is the "liberal peace," which stresses cease fires, elections, and short run peace operations carried out by international institutions, western states, and local political elites. But the liberal peace is not enough, the authors argue. A just and sustainable peace requires a far more holistic vision that links together activities, actors, and institutions at all levels. By exploring innovative models for building lasting peace-a United Nations counter-terrorism policy that also promotes good governance; coordination of the international prosecution of war criminals with local efforts to settle civil wars; increasing the involvement of religious leaders, who have a unique ability to elicit peace settlements; and many others--the authors advance a bold new vision for peacebuilding.

Transform the Way Conflict Affects Your Love Life Want to bring more peace into your relationship--and also get back that "spark" that's been missing? From bad breath to infidelity, find resolution for issues that cause division. If left unresolved, sources of disconnect can lead to major rifts in a relationship. Authors CrisMarie Campbell and Susan Clarke bring over twenty years of experience in family and marriage counseling and relationship coaching to this book. They cater their advice to romantic relationships and provide resolution strategies for women and men. Bring back the "spark" that's been missing. Passion is essential to relationships, and equally important across the spectrums of love, sex, and dating. Whether it's our first love or last love, in order for our bond with our partner to thrive, there needs to be a sense of excitement present. By transforming the way conflict affects us, we create a space for the intimate relationship or passionate marriage we long for to take root and grow. Conflict doesn't have to be a deal breaker. While arguments with our partner can get tiring, looking at those disagreements as opportunities to strengthen our bond rather than weaken it can have a significant impact on their effect. With conflict comes the chance to communicate and solve problems together. This can restore a sense of intimacy and connection with our partner, both emotionally and physically. In *The Beauty of Conflict for Couples*, you will find: • Relatable stories that shed light on the common struggles of romantic relationships • Practical tools that offer guidance for addressing conflict • A

source of hope for relationships that appear to be fated for failure If you and your significant other have looked for guidance in books such as *Mating in Captivity*, *The 5 Love Languages*, *Hold Me Tight*, or *Campbell and Clarke's first book, The Beauty of Conflict*, then you'll find a further source of resolution in *The Beauty of Conflict for Couples*.

The word "dialogue" suffers from over-use, yet its practice is as transforming and as freshly hopeful as ever. Authors Schirch and Camp demonstrate dialogue's life and possibilities in this clear and absorbing manual: "Dialogue allows people in conflict to listen to each other, affirm their common ground, and explore their differences in a safe environment." Schirch has worked throughout the Southern hemisphere in peacebuilding projects. Camp has focused on racial and class reconciliation in American cities.

Contributing to our understanding of Ovid, Milton, and more broadly the transmission and transformation of classical traditions, this book examines the ways in which Milton drew on Ovid's oeuvre, and argues that Ovid's revision of the past gave Renaissance writers a model for their own transformation of classical works.

This clearly articulated statement offers a hopeful and workable approach to conflict--that eternally beleaguering human situation. John Paul Lederach is internationally recognized for his breakthrough thinking and action related to conflict on all levels--person-to-person, factions within communities, warring nations. He explores why "conflict transformation" is more appropriate than "conflict resolution" or "management." But he refuses to be drawn into impractical idealism. *Conflict Transformation* is an idea with a deep reach. Its practice, says Lederach, requires "both solutions and social change." It asks not simply "How do we end something not desired?", but "How do we end something destructive and build something desired?" How do we deal with the immediate crisis, as well as the long-term situation? What disciplines make such thinking and practices possible? A title in *The Little Books of Justice and Peacebuilding Series*.

Victim offender dialogues have been developed as a way to hold offenders accountable to the person they have harmed and to give victims a voice about how to put things right. It is a way of acknowledging the importance of the relationship, of the connection which crime creates. Granted, the relationship is a negative one, but there is a relationship. Amstutz has been a practitioner and a teacher in the field for more than 20 years.

Following the staggering events of September 11, 2001, the Center for Justice and Peacebuilding at Eastern Mennonite University was asked to help, along with Church World Service, to equip religious and civil leaders for dealing with traumatized communities. The staff and faculty proposed *Strategies for Trauma Awareness and Resilience (STAR)* programs. Now, STAR director, Carolyn Yoder, has shaped the strategies and learnings from those experiences into a book for all who have known terrorism and threatened security. A startlingly helpful approach. A title in *The Little Books of Justice and Peacebuilding Series*.

Howard Zehr is the father of Restorative Justice and is known worldwide for his pioneering work in transforming understandings of justice. Here he proposes workable principles and practices for making Restorative Justice possible in this revised and updated edition of his bestselling, seminal book on the movement. (The original edition has sold more than 110,000 copies.) Restorative Justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is a worldwide movement of growing influence that is helping victims and communities heal, while holding criminals accountable for their actions. This is not soft-on-crime, feel-good philosophy, but rather a concrete effort to bring justice and healing to everyone involved in a crime. In *The Little Book of Restorative Justice*, Zehr first explores how restorative justice is different from criminal justice. Then, before letting those appealing observations drift out of reach into theoretical space, Zehr presents Restorative Justice practices. Zehr undertakes a massive and complex subject and puts it in graspable form, without reducing or trivializing it. This resource is also suitable for academic classes and workshops, for conferences and trainings, as well as for the layperson interested in understanding this innovative and influential movement.

When conflicts become ingrained in communities, people lose hope. Dialogue is necessary but never sufficient, and often actions prove inadequate to produce substantial change. Even worse, chosen actions create more conflict because people have different lived experiences, priorities, and approaches to transformation. So what's the story? In *The Little Book of Transformative Community Conferencing*, David Anderson Hooker offers a hopeful, accessible approach to dialogue that: Integrates several practice approaches including restorative justice, peacebuilding, and arts Creates welcoming, non-divisive spaces for dialogue Names

and maps complex conflicts, such as racial tensions, religious divisions, environmental issues, and community development as it narrates simple stories Builds relationships and foundations for trust needed to support long-term community transformation projects And results in the crafting of hopeful, future-oriented visions of community that can transform relationships, resource allocation, and structures in service of communities' preferred narratives. The Little Book Transformative Community Conferencing will prove valuable and timely to mediators, restorative justice practitioners, community organizers, as well as leaders of peacebuilding and change efforts. It presents an important, stand-alone process, an excellent addition to the study and practice of strategic peacebuilding, restorative justice, conflict transformation, trauma healing, and community organizing. This book recognizes the complexity of conflict, choosing long-term solutions over inadequate quick fixes. The Transformative Community Conferencing model emerges from the author's thirty years of practice in contexts as diverse as South Sudan; Mississippi; Greensboro, North Carolina; Oakland, California; and Nassau, Bahamas.

The four most popular restorative justice books in the Justice & Peacebuilding series—The Little Book of Restorative Justice: Revised and Updated, The Little Book of Victim Offender Conferencing, The Little Book of Family Group Conferences, and The Little Book of Circle Processes—in one affordable volume. And now with a new foreword from Howard Zehr, one of the founders of restorative justice! Restorative justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is a worldwide movement of growing influence that is helping victims and communities heal while holding criminals accountable for their actions. This is not a soft-on-crime, feel-good philosophy, but rather a concrete effort to bring justice and healing to everyone involved in a crime. Circle processes draw from the Native American tradition of gathering in a circle to solve problems as a community. Peacemaking circles are used in neighborhoods, in schools, in the workplace, and in social services to support victims of all kinds, resolve behavior problems, and create positive climates. Each book is written by a scholar at the forefront of these movements, making this important reading for classrooms, community leaders, and anyone involved with conflict resolution.

Restorative justice is gaining acceptance for addressing harm and crime. Interventions have been developed for a wide range of wrongdoing. This book considers the use of restorative justice in response to sexual abuse. Rather than a blueprint or detailing a specific set of programs, it is more about mapping possibilities. It allows people to carefully consider its use in responding to violent crimes such as sexual abuse. Criminal justice approaches tend to sideline and re-traumatize victims, and punish offenders to the detriment of accountability. Alternatively, restorative justice centers on healing for victims, while holding offenders meaningfully accountable. Criminal justice responses tend to individualize the problem, and catch marginalized communities, such as ethnic minorities, within its net. Restorative justice recognizes that sexual abuse is a form of gender-based violence. Community-based practices are needed, sometimes in conjunction with, and sometimes to counteract, traditional criminal justice responses. This book describes impacts of sexual abuse, and explanations for sexual offending, demonstrating how restorative justice can create hope through trauma.

Engaging Practices for Integrating Restorative Justice Principles in Group Settings As restorative practices spread around the world, scholars and practitioners have begun to ask very important questions: How should restorative practices be taught? What educational structures and methods are in alignment with restorative values and principles? This book introduces games as an effective and dynamic tool to teach restorative justice practices. Grounded in an understanding of restorative pedagogy and experiential learning strategies, the games included in this book provide a way for learners to experience and more deeply understand restorative practices while building relationships and improving skills. Chapters cover topics such as: Introduction to restorative pedagogy and experiential learning How a restorative learning communi-

ty can be built and strengthened through the use of games and activities How to design games and activities for teaching restorative practices How to design, deliver, and debrief an activity-based learning experience In-depth instructions for games and activities for building relationships, understanding the restorative philosophy, and developing skills in practice An ideal handbook for educators, restorative justice program directors and trainers, consultants, community group leaders, and anyone else whose work draws people together to resolve disagreements or address harm, this book will serve as a catalyst for greater creativity and philosophical alignment in the teaching of restorative practices across contexts.

Some subjects seem too hot for a group to discuss sanely. Not necessarily. The Little Book of "Cool Tools for Hot Topics" -- Group Tools to Facilitate Meetings When Things Are Hot shows how to help people hear each other when they feel like shouting; how to focus on the issues at stake rather than having a war of personalities; how to employ actual practices for better understanding (interviews, small-group discussions, role-reversal presentations); and how to move a group toward making a decision that all can honestly support. Lead author Ron Kraybill is a professor of Conflict Studies in the Conflict Transformation Program at Eastern Mennonite University, Harrisonburg, Virginia. During the years of the South African political transition, he trained local, regional, and national leadership in negotiation and mediation skills and served as a training advisor to the National Peace Accord. Cool Tools is rich in anecdotes and practical how-to for any group faced with tension-filled decision-making.

"Chad Ford reminds us that humanity lies within all of us, and although conflict is everywhere in today's world, we have the tools we need to overcome obstacles and to thrive. This is a fantastic, timely book that I highly recommend." —Steve Kerr, Head Coach, Golden State Warriors Knowing how to transform conflict is critical in both our personal and professional lives. Yet, by and large, we are terrible at it. The reason, says longtime mediator Chad Ford, is fear. When conflict comes, our instincts are to run or fight. To transform conflict, Ford says we need to turn toward the people we are in conflict with, put down our physical and emotional weapons, and really love them with the kind of love that leads us to treat others as fellow human beings, not as objects in our way. We have to open ourselves up with no guarantee that anyone on the other side will do the same. While this can feel even more dangerous than conflict itself, it allows us to see the humanity of others so clearly that their needs and desires matter to us as much as our own. Ford shows dangerous love in action through examples ranging from his work in the Middle East to a deeply moving story about reconciling with his father. He explains why we disconnect from people at the very time we need to be most connected and the predictable patterns of justification and escalation that ensue. Most importantly, he gives us a path to practice dangerous love in the conflicts that matter most to us.

This book is designed as an undergraduate textbook to be used as a foundation text for peace and conflict studies (PACS) programs or for anyone interested in an overview of the field of peace and conflict studies. Restorative justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is helping restore prisoners' sense of humanity while holding them accountable for their actions. Toews, with years of experience in prison work, shows how these practices can change prison culture and society. Written for an incarcerated audience, and for all those who work with people in prison, this book also clearly outlines the experiences and needs of this under-represented part of our society. A title in The Little Books of Justice and Peacebuilding Series.

Can community-building begin in a classroom? The authors of this book believe that by applying restorative justice at school, we can build a healthier and more just society. With practical applications and models. Can an overworked teacher possibly turn an unruly in-

cident with students into an "opportunity for learning, growth, and community-building"? If restorative justice has been able to salvage lives within the world of criminal behavior, why shouldn't its principles be applied in school classrooms and cafeterias? And if our children learn restorative practices early and daily, won't we be building a healthier, more just society? Two educators answer yes, yes, and yes in this new addition to The Little Books of Justice and Peacebuilding series. Amstutz and Mullet offer applications and models. "Discipline that restores is a process to make things as right as possible." This Little Book shows how to get there.

Our ancestors gathered around a fire in a circle, families gather around their kitchen tables in circles, and now we are gathering in circles as communities to solve problems. The practice draws on the ancient Native American tradition of a talking piece. Peacemaking Circles are used in neighborhoods to provide support for those harmed by crime and to decide sentences for those who commit crime, in schools to create positive classroom climates and resolve behavior problems, in the workplace to deal with conflict, and in social services to develop more organic support systems for people struggling to get their lives together. The purpose of this book is to illuminate a theory of youth engagement in restorative justice that seeks to create systems change for more equitable schools. The authors define youth engagement in restorative justice as partnering with young people most impacted by structural injustice as changemakers in all aspects of restorative practices including community building, healing, and the transformation of institutions. Based on Adam Fletcher’s version of the Ladder of Youth Engagement, coupled with Barbara Love’s model of liberatory consciousness and an analysis of youth engagement in Restorative Justice in three different region-

s—Western Massachusetts, Oakland, and Houston—the authors provide a theoretical contribution: Youth Engagement in Restorative Justice grounded in liberatory consciousness. In this book readers will find: Comparative case studies from different parts of the country of youth led restorative justice programs. An exploration of the cultural and historical context of each region to situate the work. Stories from the authors’ own lives that provide context for their interest in the work given their varied racial identities (White, Black, Latinx, South Asian) and upbringing. Literature review of the language of youth engagement vs. youth leadership/youth organizing/youth participation, along with a new definition of youth engagement in restorative justice. Theoretical framing based on Adam Fletcher’s Ladder of Youth Engagement, which provides a structure for the book. Exploration of how adults must combat adultism both individually and systematically as a prerequisite to doing this work. Student narratives. Applications of the work in the virtual context.
