593 - LIU RAMOS

This training needs assessment works best in small to mid-sized organizations. It will give you a quick assessment of the training needs of an employee group. In a larger organization, unless you work with subsets of employees, the challenge is more difficult. You wouldn't, for example, want 50 people in the room identifying their training needs.

The needs assessment is critical in identifying any gaps between existing training and training that will be required in the future. Conducting a training needs assessment is the first step in creating a targeted training and development program within your organization.
